

Bustillos Learning Goals

Rien ne réussit comme le succès Dumas

What do you want to know?

I want to expand my knowledge on learning theory and how it can better influence curriculum development, curriculum policy. This includes but is not limited to the following in relation to emergent technologies & areas of study:

- Cognitive Psychology
- Brain Theory
- Situated/Social Learning
- Gaming
- Online/Distance Learning
- Community Based Learning
- New measures of learning
- The Politics of the Brain

Who do you want to know?

It is my goal to develop relationships with the following key players:

- [Etienne Wenger](#)
- [Yrjo Engestrom](#)
- I need to explore/develop this roster

It is my goal to develop relationships with the following community companies:

- **Unknown at the moment**

It is my goal to develop relationships with the following organizations:

- [AERA](#)

What skills do you still need to reach your next level of expertise?

I believe I need to further my knowledge of cognitive psychology, cognitive research, brain research, brain physiology, and social learning theories.

What attitudes would you like to develop?

I would like to develop the following attitudes:

- Expertise in hard data research
- Entrepreneurial skills
- Interpersonal relationship building

What is the best environment for accomplishing these learning objectives?

The best environment to accomplishing these learning objectives is through correspondence and peer relationships with several different people who have expertise in the field. Spending some quality time with the data and those who are conducting the research.

Resources: Mentoring relationships

Field Mentor

Unknown

Peer Mentor

to be developed (need to get to know Cadre 11...); possibly Ana Balboa-Guenther from Cadre 12.

Faculty Mentor

Mercedes Fisher (upon approval)/Linda Polin (upon approval)
